***Re: Comcast's Response to Request for Information on Broadband Coverage in New Ipswich, New Hampshire***

Dear Mr. Butcher;

Comcast of Connecticut / Georgia / Massachusetts / New Hampshire / New York / North Carolina / Virginia / Vermont, LLC ("Comcast of the "Company") respectfully submits this response to the above referenced Request for Information ("RFI") issued November 18, 2020 by the Town of New Ipswich ("Town" or "New Ipswich"). The RFI states that the Town is requesting broadband coverage information to determine the unserved locations in the Town as defined by RSA 38:38(I)(c). The RFI identifies "an unserved location" as one that does not have access to at least 25 Mbps download/3Mbps upload speeds (25/3)". The RFI further states that 25/3 service must be available at the street location, but the location need not be subscribing to the service.

Based on Comcast's data regarding locations in New Ipswich where Comcast currently makes 25/3 service available, we have prepared the enclosed map which clearly identifies those locations by street. Comcast hereby certifies that all of the properties, parcels and addresses associated with the locations highlighted on the within the map currently have the ability to access 25/3 broadband provided by Comcast. Based on the locations shown on the enclosed map, Comcast sates almost 2,500 addresses in the Town of New Ipswich are served by broadband as defined above.

While Comcast recognizes that the RFI indicates that responders "may provide either a list of unserved addresses or a list of served addresses", and that "the preferred response method is a list in a spreadsheet format with specific addresses itemized and whether those addresses have the required service available", RSA 33:3-g (SB 170) contains no such requirements.

Accordingly, Comcast respectfully asks that the enclosed map and the representations in this letter be accepted in lieu of the aforementioned lists and spreadsheet.

Comcast appreciates the opportunity to submit this response. If you have any questions, or would like to discuss Comcast's network and service offerings available in New Ipswich, please feel free to contact me at 617-279-6956 (mobile).

Sincerely,

A handwritten signature in black ink that reads "Bryan Christiansen". The signature is written in a cursive style with a long, sweeping horizontal line extending to the right.
