

## Parks and Rec Meeting Minutes with Bordertown Baseball

April 5, 2017 8pm

In Attendance- Tim Johnson (selectmen), Mindy Buxton, Shawn Talbot, Nick Vautour, Doug Nichols, John Cocozella

The Rec Department hosted a meeting with Bordertown Baseball to clarify some issues that have been going on preseason.

The Rec Department requires all programs, especially organizations that need long term usage of any fields to file the field usage forms properly for each field with the proper times and accurate dates. If they need blanket times or dates they cannot overlap with others usage forms.

Bordertown Baseball is to provide Mindy with a copy of certificate of insurance and a game and rough practice schedule before field use begins. **Certificate of Insurance needs to be in before any use of the fields begins.**

Smithville- Rec is not able to provide potties due to the budget. The selectmen voted to not cut the grass for baseball, so if they would like to use Smithville they will have to maintain the field on their own.

No potties are allowed on the Smithville field, rec will look into having potties in the parking area and will get back to Bordertown Baseball ASAP. This discussion has been had in the past and I believe we were just allowed to keep it in the parking lot by NH state.

Chicken BBQ- Bordertown will provide an extra potty and will also take care of trash removal to avoid a mess on the fields from animals getting into overflowing trash. After the meeting ended Tim had suggested using cinderblocks instead of the grass or sand. That is up to Bordertown to look into if they see fit.

Starting next year Baseball will come into our Rec meetings possibly twice pre-season and once during season to make sure our dates are cohesive and the communication is open.

The Rec Department would like to see Bordertown Baseball Meeting Minutes. They are a non-profit and should be taking them. This is something Bordertown will work on.

Meeting Ended about 9:05pm

- One thing not discussed- Key fobs for Boynton Middle School are provided by NIPR. They need to be returned promptly at the beginning of field usage. If they would like a fob longer they need to discuss that with SAU.
